Roller blinds – it's what we do. We exclusively supply and manufacture for trade partners. What sets us apart? We're all about focus. Our infrastructure, supply chain, and team are dedicated to the world of 'Roller Blinds.' This commitment allows us to deliver exceptional quality in a more competitive manner, giving your business the edge.

Made to Measure

We work as your manufacturing partner for all roller blinds. We can produce manual, battery operated and electrically controlled blinds.

Fabrics Supply

Our small (focused) range of fire retardant roller blind fabrics is well stocked in the UK and will cover 80% of your requirements in a highly efficient and competitive way.

Aluminium Supply

If you are looking for a more efficient supply of aluminium profile, this is your answer. Using our own production as a test bed we are now able to provide manufacturers with a better supply chain solution for common aluminium profiles.

We give your business the edge.

Buro R400

The R400 mechanism has a unique wear-resistant steel core instead of the standard plastic core used on most roller blinds. Due to this feature the R400 comes with a 25 year warranty, providing a serious enhancement in quality over the industry standard. The universal brackets incorporate screw cover caps for a clean visual appearance. The mechanism is geared with a ratio of 1:1.5 to give a lighter and smoother operation.

Large Systems

For when you are required to cover a particularly large glazed area. This range of systems are made with larger diameter roller tubes to enable them to span greater sizes without having to split into multiple blinds.

Buro R500

The R500 is the embodiment of style and durability, carrying with it a true reflection of quality and prestige. A precisely engineered orbital gearing system lies at the heart of the manual R500 mechanism. The R500 is extraordinarily quiet and smooth in operation and due to a 61mm aluminium tube can accept the high loads of very wide spans with no complaint.

Cassette Roller Blinds

Cassette Roller Blinds offer a sleek and stylish alternative to simple Roller Blinds and are designed to fit neatly into window recesses and achieve close to complete block out of light. This is due to an aluminium cassette around the roller tube & controls and aluminium side channels to stop the light coming around the sides of the fabric.

Buro C83 Square Cassette

C83 Square Cassette

Room darkening roller blind. This system is commonly used for studios, conference rooms, IT rooms or science laboratories. The C83 is manufactured with an extruded aluminium two part head box which comes in a 83mm cassette size. The roller tube for this system is 40mm reinforced extruded aluminium tube.

The performance details of our fabrics are based on a calculated estimate derived from a specific set of circumstances. This is provided to act as a guide only, actual results may vary significantly depending on the unique conditions of the installation environment, including factors such as the glazing, lighting, temperature, location, and usage patterns. We recommend considering a physical working sample when evaluating performance. We reserve the right to change product details without notice and cannot be held liable for any decisions made based on this performance information.

Valencia Black-Out (FR)

Our Valencia Black-Out fabrics offer the same touch and durable fire retardant (FR) performance as the standard Valencia range, but with a smooth PVC blackout coating on the reverse side. This produces a luxurious soft finish at the same time as full black-out performance.

Diffusor

Our Diffusor range is a more technical screen fabric designed to provide shading and privacy, without losing the benefit of natural light. Made from thin lightweight yarns, woven into a full basket weave, Diffusor will reduce solar glare without fully blocking light. Diffusor comes in a range of neutral colours, with openness factors ranging from 1% to 5%.

Wholesale

Buroshade wholesale solution provides you with a halfway house between importing directly from a mill and buying from a regular UK wholesaler. In line with our drive to focus, we offer a small tried and tested range of common fabrics and common profiles that are well stocked in the UK and supplied in manageable MoQ's.

Aluminium Supply

If you are looking for a more efficient supply of aluminium profile, this is your answer. Using our own production as a test bed we are now able to provide manufacturers with a better supply chain solution for common aluminium profiles.

Fabrics Supply

Our small (focused) range of fire retardant roller blind fabrics is well stocked in the UK and will cover 80% of your requirements in a highly efficient and competitive way.
